

ful attempt to kidnap Little Phil and bring him back to the United States.

But a mob of Mexicans is murmuring fierce threats around the Juarez jail, where three Americans who were in Oaka's raiding party are being held.

Three others made their return safely to the American side after Little Phil had been beaten into unconsciousness when he resisted the American officers.

The murderer would have been brought back into the States had not Mexican police stopped the taxicab, in which the raiding party was carrying his limp form back, just before the border was reached.

Thirty Mexican soldiers are guarding the Juarez jail against the mob which threatens the three Americans inside.

OAKS WILL STAY

"I'm going to stay here until those three men are safe back on American soil," said Chief Oaks in El Paso tonight.

The three Americans, whose detention may result in international complications, are Capt. Claude E. Smith of the 1st Texas police force; Sam Dreben, World War hero and soldier of fortune, and C. C. Smith, a Texas citizen.

EX-KAISER SAYS BRITAIN SOUGHT HIM AS ALLY

Declares His Visit to Tangier, Cited as Early Cause of World War, Was Against His Will

BY WILLIAM HÖHNENOLLERN.
Former Emperor of Germany
Fourth Installment

(Copyright by the McClure Newspaper Syndicate. Entered as Second-Class Matter, October 3, 1911, at New York, N. Y., under No. 100,000. Postage paid at New York, N. Y., and at additional mailing offices.)

Editorial Note: This is the fourth installment of a series of articles by William Höhnellern, former Emperor of Germany, on the subject of the World War. The first installment appeared in the New York Times, October 3, 1911, and the second in the New York Times, October 4, 1911.

laxi in which Alguin was being brought back after being beaten senseless by the raiders.

The story told by the Juarez police is that Alguin was engaged in a fight on the street, beaten unconscious and thrown into a taxi. The telephone was taken by the police and the capture followed.

Drehin, one of the most picturesque of the border men, has been in the United States for many years. He was a "Red Flagger" years ago, during the many revolutions in Mexico, and it is told how he was once captured by the "Americano," though deserted by their "Americano," stayed with a machine gun and put to flight hours of the enemy.

Alguin, in the summer of last year, was suddenly rushed by truckload of ammunition to Gen. Mendez, commander of the garrison.

World War also played a part in the border life. It was the first time for gallantry in action. He

After my return home from England I was able to report to the Chancellor on the good impressions I had received, and particularly that opinion in England was apparently in favour of an understanding and of closer relations.

Unlue expressed himself as astonished with the results of the journey, after we had talked at length about it at Homburg and consulted as to how the situation created by the journey should be put to use. I suggested that we should unquestionably continue to work together, if an alliance—which I preferred—could not be brought about. In any event, a firm agreement was sufficient. I said that I could suit the English; in the long run an alliance might always develop from it.

The opportunity for such an alliance was lost with unexpected promptness. While I was at Homburg, a peace feeling was very great and the eastern frontier of Prussia was virtually closed. The British Government, the Russian forces; that England would not be in a position to protect our eastern province from a Russian attack, he said. The Baltic and we could be unable to sail into the Black Sea; that, in case of our making common cause against Russia, we should be in great danger quite independently of the possibility of the entry of France into the High North.

Chamberlain then informed us that a firm alliance should be made, by which England would

This is the second time Alguin has escaped from the hands of American justice. The first time he fled from Los Angeles to Los Angeles to face trial for murder. Each time he has been released from prison.

Alguin first escaped from the hands of those seeking to bring him to justice shortly after he had been sentenced to life in prison after being held a short time by Mexican authorities in connection with a mail robbery on the American side of the border in September 9 of this year and released by Chief of Police Eduardo Carranza for a fine of \$15 for vagrancy.

After he stepped from the jail a free man in Mexico—a band of unidentified Americans grabbed him shortly after he had been released, threw him into a car, drove a short distance, and hurled him into the water to elude pursuers. It was believed.

Mexican police stopped the car carrying Alguin and released him. Alguin then returned to the Mexican police, one of the abductors shot at Alguin, the bullet striking him in the chest.

Alguin was again seen on the main streets of Juarez.

Chief Oake of Los Angeles says

burg von der Hols in the spring of 1901 Count Metternich, who was then minister of the Foreign Office, brought me a notification from Berlin that Mr. Metternich had asked the Russian ambassador to whether Germany was ready for an alliance with England. I immediately replied that I could not say, if England so suddenly offered to make an alliance in the midst of peace, it might be a disaster for the German army, which made it worth while to find out against whom the army was to be sent. I told that the German troops were to fight, at England's behest, by her side. Thereupon the Russian ambassador told me that they were needed against Japan, since Russia was a member of the league of Constantinople.

The first thing I did was to call London's attention to the old tradition of brotherhood in arms between the German and Russian armies, and the close family ties between the two nations. I told the two countries; in addition, I jointly with France and Russia in 1894, had signed a treaty of alliance. I came in on the side of Russia, and also the fact that we had acted jointly with Russia in 1895, in the Far East (Shimonoseki, 1895) and that there was no reason to unleash a conflict with Russia at the present time, when the world was in the midst of peace; that the superiority

nally since Russia was to come to the aid of England.

I also had pointed out that the validity of an alliance could only be based on the fact that the parliament had placed its approval upon it, since the ministry might be overthrown from office by a vote of no confidence in the parliament, whereby signature of an alliance might be rendered null and void. I also pointed out that we could look upon the Chamberlain suggestion for an alliance as a purely personal project of his own.

To this Chamberlain replied that he was not a member of parliament in due time and found the way of winning the Unionists to his idea; that all we needed now was to get the Reichstag in Berlin. Matters did not progress as far as that, because Parliament was not in session at the time. Chamberlain's plan; therefore the plan came to nothing. Soon afterwards England entered into an alliance with Japan (Hayashi). The Russian Japanese war broke out, in which it was pointed out to the fact that it fitted in with the interests of the role of pawn for England's interests, which role had originally been intended for Russia. In this war Russia was thrown from the East back to the West, whereas Japan was thrown from the West back with the Balkans, Constantinople and India—which was to Japan's

SUTHERLAND TAKES BENCH

Supreme Court Convenes and Inducts Former Senator Into Judicial Office

[BY A. F. NIGHT WIRE.]

WASHINGTON, Oct. 2.—The Supreme Court reconvened today after the summer recess for the October term and, after inducting into office former Senator George Sutherland of Utah to fill the vacancy caused by the resignation of Associate Justice John H. Clarke of Ohio and admitting to practice thirty-five attorneys, adjourned to call at the White House for the usual visit of respect to the President.

When the court, headed by Chief Justice Taft, entered at noon the old Senate chamber in the Capitol, where the sessions of the court have been held for years, the chamber was crowded while a long line stood in the corridors seeking admission.

APPEARANCE IMPRESSIVE

Justice Sutherland, in his robes, remained behind the screen at the rear of the bench, while the Chief Justice explained that a vacancy had occurred during the recess and that the judicial oath would be administered to the new Justice, stepping to the platform beside the Chief Justice. Justice Sutherland impressively repeated the obligation, enunciating the clauses after Chief Justice Taft had read them.

then formally welcomed the newcomer to the bench, and he was conducted to his seat at the end, to the left of the Chief Justice, where he formally welcomed, this time by Justice McReynolds, who occupies the next seat.

PITNEY ILL

Justice Pitney was the only absentee, being confined to a sanatorium near his home in Morristown, N. J. His colleagues upon the bench are apprehensive over the course, which is serious, according to reports reaching them. At the White House members of the cabinet were ushered into the Blue Room, where, formed in horseshoe line, they were joined by the President, who formally greeted each.

The court tomorrow will enter

in 1905 came my journey to Tangier, undertaken much against my will. It came about as follows: Toward the end of March I intended, as in the previous year, to take a Mediterranean trip for the sake of my health, to which I proposed to avail myself of some ship running empty from Cuxhaven to Naples. The Hamburg was destined by Ballin for Bale-

Swiss Insurance Companies Say Feminine Apparel More Risky Now

ST. CABLE AND ASSOCIATED PRESS. GENEVA, Oct. 2.—Low necks, short sleeves, short skirts and high heels in feminine apparel have increased women as an insurance risk and several Swiss insurance companies which insure against sickness have announced that the premiums are now raised 15 per cent for women, because of her curtailed garb.

HORRORS OF TURKISH RULE

of Several Hundred Thousand Christians for Food Met With Whips' Lash

(BY CARLIS AND ASSOCIATED PRESS.)
ANTANTINOPLE, Oct. 2.—"The cries of the Christian refugees for water and food are met by a Turkish lash," said Dr. Lovejoy of New York, president of the American Women's Hospital, who has just returned here after a week's survey in the straits and the horrors of the Turkish rule.
There are still several hundred Christians in Smyrna and the straits, whose lives are in danger. The time limit of the American Women's Hospital has expired," she said.
The refugees are crowded into the straits and the horrors of the Turkish rule. The time limit of the American Women's Hospital has expired," she said.
The refugees are crowded into the straits and the horrors of the Turkish rule. The time limit of the American Women's Hospital has expired," she said.

Keeping Your Fortune Under Than Earning It.

The first test of a man's ability to succeed financially is in accumulating his wealth. The second and harder test comes in keeping it. One authority expresses it this way: "Find the man who at 45 has accumulated a fortune and who, at 65 still has it, and you have found a truly successful man."

There is no safeguard for your funds to equal investments in high grade bonds, selected through the co-operation of a dependable bond house.

NEW YORK STOCK EXCHANGE

[BY A. P. NIGHT WIRE.]

NEW YORK, Oct. 3.—A sharp advance in prices took place in today's stock market on receipt of news that the British and Turkish commanders in the Near East had agreed to meet at a truce conference tomorrow. Professional short interest, who had sold stocks freely in view of the disquieting foreign dispatches, hastened to cover their demands, coupled with those of traders who had kept out of the market until the war clouds apparently had passed, resulted in more active issues registering gains of from 1 to nearly 4 points.

The advances were spread over most of the list, but the largest gains were recorded in the steel, equipment and oil. Some excellent gains were made by specialties, particularly Oil, Elevator, which was up 7; American Linseed, up 1 1/4; Electric Storage Battery, up 3/4; and Wells Fargo, up 3 1/4 points.

Bethlehem, "B," Lackawanna and Midvale each were pushed up more than 2 points, some of the buying being attributed to unconfirmed reports that the Midvale Company might be taken into the Bethlehem-Lackawanna combination.

United States Steel common moved up 1 1/2 and Republic 1 1/2. Reports of higher prices and increased production also were reflected in the demand for steel shares.

Strength of equipments was based on additional large orders from the big railway systems, the orders now on the books of the Baldwin, American Locomotive and Pullman companies being reported as from one to three times as much as those of January 1. These three stocks registered gains of from 1 1/4 to 3 1/4 in today's trading. Mexican Petroleum, which was under pressure last week, exhibited a marked reversal of form today, showing net gains of 3 1/4 points. Reports that the Mexican government had ruled against the State of Vera Cruz, imposing a State tax on petroleum production, was a favorable instance. Standard Oil of California moved up 1 1/2, and Standard Oil of New Jersey 1 1/4, despite announcement of a cut of 3 cents a gallon for gasoline in the Carolinas by the New Jersey company.

Railroad stocks appeared to have shaken off the dampening influence of poor August earnings statements. Canadian Pacific heading the list with a gain of 3 1/2 points. Several others moved up a point or more, including Atchafalaya, Northern Pacific, New York Central, New Orleans, Texas and Mexico, Chesapeake and Ohio, St. Paul common and preferred, Delaware and Hudson, Lackawanna, Southern Pacific, Reading and Union Pacific. Sugar shares made a good response to the advance in prices for the refined product. American climbing 3 1/2, with smaller gains being noted in Cuban-American and Cuba cane.

The Jewish holiday accounted in part for the lighter volume of business, total sales aggregating 125,000 shares.

Call money opened at 3 1/4 percent and advanced to 3 1/2, where it held until closing. The firmness was attributed to withdrawals from the first of the month requirements. The time market and commercial paper markets were quiet, with virtually no change in rates.

Foreign exchange rates strengthened in tone in response to the more favorable Near Eastern news, demand sterling showing a gain of nearly 1 1/2 cents. German exchange was heavy, marks being quoted at 3 1/4 cents a hundred, against 6 and 6 1/2 on Saturday. Canadian exchange was quoted at a premium of 1-4, the highest in recent years.

THE COUNTRY OVER

[EXCLUSIVE DISPATCH.]

KANSAS CITY (Mo.) Oct. 3.—Wholesale drygoods merchants report that retailers who had held out for buying for a time are now in the market and that September business will run well ahead of last year.

Despite the adverse conditions early this month trade is rallying in this region in a way which testifies to the soundness of the business structure. Merchants are adding to their sales force.

Wholesale grocers have been affected by transportation difficulties. There are ample supplies of staples on hand but there is a lack of variety in stocks. As a whole prices are lower than they were last year with the exception of sugar.

CLEVELAND (O.) Oct. 3.—Ability of the railroads to cope with the demands of the steel industry in this district is giving heads of the steel plants much to think of just now. Failure to provide sufficient cars and engines may mean a shutdown of the sheet-making plant. Plenty of fuel is being supplied the mills but lack of space to handle production cuts Pennsylvania's independent reports 2000 tons on its floors while another has twice that amount awaiting shipment. Still another reports 100 carloads of sheets are piled at its plant waiting cars.

Demand for sheets from auto makers is improving.

SEATTLE (Wash.) Oct. 3.—The outstanding feature of business life of Seattle is the remarkable increase in freight tonnage handled by water through this port.

Figures compiled by port authorities and United States customs officials indicate that 1922 will end with gain in both domestic and foreign shipments by water. The first nine months of this year have shown a big gain over a corresponding period of 1921.

Customs reports for the fiscal year just made public have placed the district of Washington in fourth place in the matter of customs receipts with New York, New Orleans and Galveston ranked as named.

What It Means When S. W. STRAUS & CO. Recommends a Bond Issue

"We recommend these bonds as a safe investment," is a phrase you have frequently seen in the bond offerings of various investment houses.

Did you ever stop to think just what such a recommendation means? In many cases, it simply means that the firm offering the bonds believes they are well-secured and reasonably safe.

But with S. W. Straus & Co. it means much more. This House bases its appeal to the investor on our record of 40 years without loss to any investor. This record is our greatest asset, and we could not afford to recommend an unsafe security.

Our recommendation means, therefore, that every bond we offer has back of it our forty year record of safety.

May we submit our investment recommendations to you? We will be glad to do so if you will call at our office or write for

Louisiana Celotex Company

First Mortgage Ten Year
Sinking Fund
7% Gold Bonds

The Celotex Companies are engaged in the manufacture and sale of building, box and insulating materials from the refuse fibre of sugar cane.

The company's product has a wide diversity of uses with nation-wide distribution. Its main plant at New Orleans is operating on a 24 hour daily schedule with orders far ahead of production. With present volume of business, earnings are at the rate of 6 times interest charges on this issue.

Current assets are over 4½ times current liabilities and net tangible assets are over 3 times this issue of bonds.

We recommend these bonds for conservative investment and shall be pleased to send detailed descriptive circular upon request.

Steady accumulation of Telluride Mining is giving rise to rumors in several brokerage houses that a dividend declaration may be expected at any time. Reports are that the company has acquired a substantial cash reserve from the ore it has been sending through the Tom Reed mill, and is in shape to make initial disbursements to its stockholders. Telluride closed at 21½ cents yesterday after selling up to 25. Richmond Mining sold at 25. Oatman United at 22 and United American at 6.

San Joaquin Light and Power preferred maintains a strong market at 89 with stock hard to secure. Earnings of the company are said to be sufficient to begin payments on the accumulated dividends, and present holders are retaining their stock with this expectation in view. Southern California Edison common, sold at 103½.

General Petroleum sold up to 114, but profit taking brought the issue down to a close of 112½. Globe Petroleum displayed strength at 20 cents and United States Petroleum evidenced a tendency to move upward again by closing at 21 with sales at 20.

IS

The average motorist bargains usually prove expensive in the end.

If we could afford to give you an automobile, this advertisement would be unnecessary.

We have on hand right now ready for delivery about 30 used automobiles ranging in price from \$400 to \$2200.

The majority of these cars are good, although there are a couple in need of attention. We will sell at price consistent with their condition.

We will take any valuable used car in for trade payment and give terms if you like.

We run less than 2000 miles a year. We sell deeply reduced price.

LOS ANGELES

TUESDAY MORNING, OCTOBER 3, 1922. —PART II: 12 PAGES.

POPULATION: By the City Director (1920)—2,414,000. By the Federal Census (1920)—2,414,000.

LOS ANGELES COLISEUM SOON TO BE REALITY

Dream of World's Largest Stadium Rapidly Becoming Solid Fact at Exposition Park

The dream of Los Angeles to possess the world's greatest theater and stadium will soon come true with the completion of the Los Angeles Coliseum, now under construction at Exposition Park. With a massive concrete colonnade more than 400 feet wide and an entrance arch seventy-five feet in height, the gigantic structure is taking on a finished form.

MILDRED DISPLAYS PURSE

But It's So Empty Creditors Find No Consolation; Bankrupt Actress Owes Thirty Thousand

"I owe more than \$30,000 and I haven't a single cent to pay it with," is what Mildred Harris, actress and former wife of Charlie Chaplin, wails in effect in the bankruptcy petition which was filed in the United States District Court yesterday.

WOULD CURB RECKLESSNESS

Board of Public Utilities Seeks to Have Drivers of Commercial Vehicles Pass Test

Drivers of all trucks, delivery wagons and other commercial vehicles in Los Angeles will be required to pass examinations and secure driving permits from the Board of Public Utilities, if the recommendation adopted yesterday afternoon by the Public Safety Committee of the City Council is approved by the City Council.

TWO NEAR DEATH IN RIP TIDE

Woman Tennis Player and Man Narrowly Escape Death

By a "Times" Staff Correspondent
LONG BEACH, Oct. 2. — Miss Francis Racine, prominent Pacific Coast tennis player and runner-up to Miss Mayne MacDonald in the championship meet at Tacoma last week, nearly lost her life in the surf here late yesterday afternoon. It was revealed today.

"BUTLER AND MAID" HELD

Two Charged With Theft of Silverware and Clothing from Miss Geraldine Graham

The name of Miss Geraldine Miller Graham of Montecito, who two years ago was linked with that of the Prince of Wales in an engagement rumor, yesterday again was placed before the public eye when her asserted maid and butler were arrested here in connection with the theft of several thousand dollars' worth of silverware and clothing from Miss Graham several days ago.

"BLESS YOU, MY CHILDREN"

Phoenix Woman, Perplexed, Asks Solution to Problem and Gets Sensible Answer

BY ALMA WHITAKER
She lives in Phoenix, Ariz., but she is in Los Angeles waiting for me to tell her if she may marry him. She has written me an urgent letter and declares that my answer shall decide. She is 36 and he is 29. He is her first and only sweetheart. Living in a small town and being devoted to an invalid mother, she has had small opportunity to meet men of her own age.

LONG BEACH HARDI GRAS IS OPENED

Parade and Mammoth Street Parade Follow Women's Coronation

By a "Times" Staff Correspondent
LONG BEACH, Oct. 2.—This year's Hardi Gras celebration here tonight at Hotel Virgil and on Silver Spray pier on the beach, was a dinner to the queen of the carnival, Miss Billie Smith.

PHILANTHROPIST'S FIFTH FRUIT SHOWER ON NEXT WEEK

8th Annual "Fruit Shower" for Los Angeles Non-Profit Home Will Be Conducted Next Week, Beginning Monday, at 1:30 p.m. Women Will Be Accepted Donations of Foodstuffs and Other Gifts

The 8th annual "Fruit Shower" for the Los Angeles Non-Profit Home will be conducted next week, beginning Monday, at 1:30 p.m. Women will be accepted donations of foodstuffs and other gifts.

PLAN NEAR EAST RELIEF

OIL PROMOTER ARRESTED HERE

Philadelphia Police Charge
Him With Embezzlement

Asserted Defalcation Said to
be \$30,000

Natty Prisoner Denies He
Has Been Dishonest

M. W. Friedell, a stock promoter and oil dealer, who was described to the Sheriff's office as "resembling Woodrow Wilson," was arrested yesterday by Deputy Sheriff Dewar upon telegraphic information from Philadelphia that he is wanted there on a charge of embezzlement of \$30,000. Friedell's arrest was brought about through information given Dewar by a local business man who knew the promoter in Philadelphia. By this man, according to Friedell, it was stated that Friedell's oil business operations in Philadelphia reached more than \$1,000,000.

Friedell was arrested at the residence of J. E. Sellers, 281 West Fifty-first street, where both Mr. Sellers and Friedell stated they had just met for the first time.

RESEMBLES WILSON
The unusual resemblance of Friedell to Woodrow Wilson was not so noticeable yesterday because of a small mustache worn by the promoter. He was nattily dressed. He apparently has been staying at some of the larger hotels of the Southland.

At the County Jail Friedell seemed confident about the outcome of his case and seemed worried only because he might not be able to furnish bail last night.

"This is absurd," he stated. "I am all a mistake. I am not a stock promoter. I am a business man. I am president of the Black Panther Oil and Refining Corporation of 1816-18 Race street, Philadelphia. I own control, or have the control, of \$1,000,000 worth of stock in the company, which has a number of wells in Ohio and Indiana. I also hold four \$10,000 notes against the company. I am absolutely innocent of any charges of embezzlement, and can show this with documents I have and by the minutes of the company, which will be my best evidence. This is nothing but a fight within the company, as events will show."

Friedell stated that if the Sheriff's office would telephone to Philadelphia to learn the amount of bail required, he would quickly furnish it.

It was stated that Friedell came to this State with his secretary and efforts were made last night by Deputy Dewar to locate the secretary. Papers on Friedell showed that he had been a guest at the Waldorf Astoria, New York, and several other large hotels in the East and in and near Los Angeles.

"BUTLER AND MAID" HELD

(Continued from First Page)

ler and in this guise enriching themselves with the property of their employers.

The two suspects admitted, according to detectives, that they had already, at the time of their arrest yesterday, made arrangements to go into the employ of a wealthy family here.

What steps the Santa Barbara officials will take in prosecuting Lumsden and his supposed wife for the asserted theft of goods will depend largely on the police here, on Miss Graham.

Back From Voyage to Romantic Isles

BOY'S HEART PIERCED BY GLASS BARB

Inglewood Student Dies
Following Fatal Crash Into
School Door

His heart pierced by a splinter of glass in one of the most unusual accidents on record in this section, 13-year-old James Thomas, a student at Inglewood High School, died at the Inglewood Hospital early yesterday afternoon.

James, whose home is at 1187 Cypress street, came running down the stairs of the school during the noon hour yesterday. He was a few minutes behind the other students. None saw when he plunged through a pane of glass that forms the top of a door at the stairs.

The glass shattered. Its crash attracted the janitor of the school, who came just in time to see James stagger and fall.

A splinter was in attendance in a few moments. The clean puncture in the boy's breast told the story. The lad was unconscious. It was evident that a splinter of the glass had reached to the heart. Evidently the boy had pulled out the glass before the janitor saw him.

He was rushed to the hospital, but died within ten minutes without regaining consciousness.

A coroner's inquest will be held.

COLISEUM SOON TO BE REALITY

(Continued from First Page)

is blocked, children are crying when unable to see, women are weary and police are busy keeping enthusiastic spectators from being run over. This is a tremendous waste of time, money and patience.

"Second: Just a short time and the Coliseum is completed. The circus is again in town and its parade is marching around the stadium at the coliseum. Seated comfortably where each can see more than 15,000 persons are enjoying the sight."

Los Angeles city and the county, in conjunction with the association, in return for an annual rent, will have equal rights to the Coliseum with the association for a period of years, at the end of which the Coliseum becomes the possession of the city. The Sixth District Agricultural Association, the City Playground Association and the City Park Commission.

The association has charge of construction and use of the structure under an agreement it made with the city. The Sixth District Agricultural Association, the City Playground Association and the City Park Commission.

REVENUES INTO FUND
The Community Development Association was incorporated on a nonprofit, noncapital stock cooperative basis. As the association body being defrayed by subscriptions. All revenues to be derived from the Coliseum will be devoted to a revolving fund for the maintenance of the structure and the perpetuation of the purposes for which it was built.

The officers and directors of the association are: William May, president; D. A. Hamburg, vice-president; Henry S. McKee, treasurer; Zack J. Farmer, secretary and manager; G. O. Young, Harry Chandler, Dr. Frank F. Barham, Edward A. Dickson, Jerry Sanders, Louis M. Cole, A. M. Chaffey, Henry M. Robinson, Frank P. Flint, Arthur Letta, E. D. Lyman, G. Harold Powell, Russell H. Ballard, Paul Rhoads, Maynard McPhe and M. H. Whittier.

The agreement under which the building and operation of the Coliseum were planned was evolved after about two years' consideration. Its validity was passed upon by the Appellate Court of the State and the State Supreme Court.

WOOLWINE GETS COOL RECEPTION

(Continued from First Page)

ne of these youths, he said, informed him that they had left a high-school dance at which "most the boys had pocket flasks on their hips." His positive statements relative to bootleg establishments and the drinking of spirits personally known to him, may result, it was intimated at the City Club, in a request that Mr. Woolwine, either in person or through the office of the District Attorney, co-operate with the United States authorities to the extent of prosecuting Volstead Act violators said to be working openly in the nominee's own neighborhood.

Landing After First Trip
Above, the City of Los Angeles trying up at the harbor; below, Mayor and Mrs. Cryer and their son coming down the gangplank, decked with leis brought from Hawaii.

WELCOME VOYAGERS HOME

Chamber Directors Greet Returning Angelinos; Say
Hawaiian Excursion Most Successful

The S.S. City of Los Angeles at noon yesterday pulled alongside its pier at Wilmington with 200 Angelinos wearing leis and calling "aloha" to their friends ashore. It ended the Chamber of Commerce's fortnightly service of the Los Angeles Steamship Company with its great promise for new business between Honolulu and Los Angeles.

The excursionists have been gone three weeks, time they all consider well spent both for pleasure and future profit. They were entertained royally by the American residents of all islands of the Hawaiian group, and the Los Angeles and Hawaiian business men formed relations that will mean much in the years to come.

TRIP SUCCESSFUL
"Considering everything, the excursion was most successful," Mayor Cryer said when he stepped off the gangplank. "You see, the Hawaiian business men have shipping connections of many years' standing and some are directors in firms having interests in other ports. But they welcomed us just the same and are ready to do business with us."

"They wanted to see whether the new steamship service was in earnest, and now that they have seen the City of Los Angeles and the City of Honolulu they know that it is. We also should get many tourists from the islands as a result of this trip. It will be mutually agreeable and profitable."

The City of Los Angeles was welcomed harbor by the Chamber of Commerce board of directors on the Submarine Chase No. 308, loaned by Admiral Eberle. As the most successful, Mayor Cryer said when he stepped off the gangplank. "You see, the Hawaiian business men have shipping connections of many years' standing and some are directors in firms having interests in other ports. But they welcomed us just the same and are ready to do business with us."

"BLESS YOU MY CHILDREN"

(Continued from First Page)

Sowers. He assures her that age has no significance, that anyway, it is she he loves, just as she is, with that seven years' greater charm and experience. So she has put it up to me. Shall she stay and have a dear little wedding, an adorable home of her own—and the future be handed? Or shall she hurry back to Phoenix, put this glamour of romance behind her, be sensible?

YES, MARRY HIM
Well, my dear, marry the fellow. Sure, marry him at once. Nothing venture, nothing have. That is, if you really love him. But for mercy's sake don't marry the poor chap on "respect." Don't marry him just for that bungalow and the garden. After all, it is more important to love than to be loved—particularly and especially to women. And he obviously loves you. He probably always will—they often do, in spite of the cycles. Of course, poor boy, it is unfortunate that he is seven years too young, but don't hold it against him—other things being equal.

Just be sure you love him—that is the only condition I insist upon. Then, you see, you can forgive so much he so sympathetically understanding, see with kind eyes—and weep with self-respect.

Besides, you have promised to call the first little girl Alma. I positively must have an Alma. The Lord send me only boys.

And, strictly between ourselves, I am four months older than by husband, but I never throw it in his face. I generously wait to celebrate my birthday in August instead of exploiting my superior months in April, which you will concede is the ladylike thing to do under the circumstances. If it were four years instead of four months I would magnanimously renounce my birthday altogether—apart from standing myself a new hat.

BANANA CARGO BROUGHT
The City of Los Angeles brought home a cargo of bananas, and a goodly cargo of ukeleles, the latter, however, in the trunk of the passengers. The bananas are less interesting, but more significant. Hawaii will consume great quantities of goods of American manufacture, but the holds of the ships must be filled on the return journey. The sugar, of necessity, goes to San Francisco because the refineries are located there. This leaves pineapples and bananas to be shipped here. The pineapple business already has been developed with huge canneries on the islands, but as yet Hawaiian bananas are unknown in the States.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher on the wrapper for over 30 years just to protect the coming generations. "Just-as-good" are but experiments that endanger the health of Children—Experience against Experiment. Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrup. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind, Colic, Diarrhoea, allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Bears the Signature of
Chas. H. Fletcher
In Use For Over 30 Years
THE CENTAUR COMPANY, NEW YORK CITY.

to the Vocal Departm

Franchise of
Incline Road
Taken Away

The residents of Mt. Washington
yesterday afternoon won their
battle against Robert Marshall
when the Board of Public
Utilities, on motion of Commis-

ioner Kennedy, recommended to
the City Council that the com-
ment of nonoperation of the line

mountain-top residents have
take this action, so that Mr. Marsh
could be required to remove, as a
disgrace on a public street, the

covered tracks and cable.
The board gave Mr. Marsh until
last Saturday to remove the cars.

Assistant Chief Engineer Lorenz
attended to the board yesterday
warning down the lumber of the

the trucks still remained on
the tracks, so the death knell of
the incline railway was sounded
and there.

The board urged the board to take this action, as that Mr. Marshall was required to remove, as a public street, the incline and the railway tracks and cable.

City-County Building Plan is Advanced
Co-operation between the city and the county in working out a comprehensive plan for an administrative civic center north of First street, as recommended by the City Planning Commission, was insured yesterday. The City Council authorized its Public Welfare Committee to work as a civic center committee with the County Supervisors in preparing a definite plan.

City-County Building Plan is Advanced
The present Courthouse and Hall of Records will be a part of the civic center group. The members of the Council committee are Councilmen Allan, Conway and Langdon.

PEARSON AND BRYAN SPEAK

Candidate for Senate Gets Hearing in South

San Bernardino Folk Told of Dry Platform

Tour of State Planned in Next Four Weeks

William J. Pearson, Democratic candidate for United States Senator, whose supporters refer to him as "the Progressive-farmer candidate," appeared yesterday before a San Bernardino audience, and spoke in behalf of his candidacy.

Mr. Pearson, whose avowed "dry" sentiments are said to have prevented the wet Democratic candidate for Governor from placing a "wet" plank in the Democratic platform at Sacramento, went to San Bernardino at Mr. Bryan's request, and preceded "the common-sense" on the platform. Mr. Bryan, under the auspices of the W.C.T.U., urged support for the enforcing of the Eighteenth Amendment.

Mr. Pearson announced on his return from San Bernardino that his campaign has "and that he will fulfill a strenuous itinerary requiring his presence in various parts of the State before the November election."

WORKS WITH CHURCHES
According to David D. Moore, campaign manager for the Democratic Senatorial nominee, Mr. Pearson's general campaign will be taken over almost entirely by church and civic organizations, "which hold law and order and the enforcement of the statutes above politics."

In his first political speech following his nomination for Senator, Mr. Pearson said he would stand for a tariff that enriches the favored few at the expense of the consumer. "I shall use my best efforts to place the tariff where it belongs—in the hands of a non-political tariff commission to be created as a scientific measure."

EXPECTED PROTEST
"I have pointed out some lessons in misrepresentative government, and it is just such lessons as those that bring an end to government by persuasion and promise, and restore representative government—government by the people. And I for one, believe that the people of California will assert themselves as the polls this fall in protest against misrepresentative government in any quarter."

A tour of the State by automobile, with stops at all rural communities, small towns and cities, where he will have an opportunity to meet the voters, is his plan of campaign, and he will make it in his own way—the homely fashion of direct appeal.

DE MOLAY YOUTHS TO GIVE SHOW
Revels of 1922 to Open Here on 4th Inst. for Two Performances

With the title roles portrayed by professional soloists, and a supporting ballet and chorus of 250 professionally trained boys and girls, the De Molay Revels of 1922 will open at the Philharmonic Auditorium on the 4th inst., and be repeated the following night under the auspices of the Hollywood Chapter, Order of De Molay, for boys.

The chapter is sponsored by Hollywood Masons. The Revels are being produced by Mr. and Mrs. Lucian Denni, who have put on similar affairs in the East. The De Molay Revels, dancers, and recognized players like Lora May Lampert, Celeste Harber, Virginia Lee Matson, Helen Rasser Heath, Dorothy Davis, Charles Vincent Clay, Edward Murphy, Roberta Wells and others, are in the cast.

The music ranges from grand opera to jazz, while the entire production is based on the grand story of a professor who, by a joke, is led to believe that he has brought life to the dead.

Husband Could Not Stand Wife and Prosperity
Old Ernest Elliott, wealthy fruit and nut man, kick his wife, Lola M. Elliott, out of his life after she established the business and paved the road to wealth?

This question will be solved when her divorce suit is tried. But yesterday the parties were in Presiding Judge Willis's court in alimony proceedings. The court awarded her \$125 a month. Alimony Mr. Elliott declared that if he had to pay that sum he would have nothing to live on.

In her complaint Mrs. Elliott states that she worked laboriously to establish the fruit and nut business. She started the business in Ojai in 1918. Later she moved to the present place. The business grew and Mrs. Elliott declared her husband gave up his \$12-a-week job to join her in running the establishment. They made money, the monthly profits ranging from \$300 to \$400 a month.

She became run down physically and wanted to devote herself to her home, but she says he flew into a rage and things were unpleasant. She said he kicked her out. He denied her charges. In her complaint Mrs. Elliott asks that the community property be divided equally between them.

STUDENTS HEAR BRYAN ASSAILED

Caltech Councilor Addresses Opening of Institute

Calls Commoner Menace to Christianity

Describes Ailments Found in European Lands

By a "Times" Staff Correspondent
PARADENA, Oct. 3.—An intense nationalist pervades Europe and is hindering scientific research, Dr. Robert A. Millikan, chairman of the advisory council of California Institute of Technology, told the students today at the first regular assembly of the year. Dr. Millikan paused in a recital of his recent European trip to pay his respects to William J. Bryan, whom he called a worse foe of Christianity than Robert J. La Follette, and to deliver a "bonus bill" "un-American" and a "mere sop to the mob."

In Belgium, where Dr. Millikan lectured to university students as an exchange professor, the need more than anything else is uniformity of language, he said, instead of adopting French, already spoken by a large proportion of Belgians, Flemish is now taught in schools as a result of the nationalist spirit born of the war.

NEED FRENCH
"If French were adopted, it would make the United States the greatest in the world, due to the fact that Belgium is centrally located between England, France and Germany and could form points of contact with the universities of those lands, said Dr. Millikan. The prejudices, jealousies and national feelings of the Flemish people act as a bar to this achievement."

BONUS ATTACKED
Dr. Millikan said he did not believe a bonus bill would pass in the United States, uninfluenced by politics, favored the bonus legislation. "We have no serious, I am convinced, to find any serious reasoning sentiment in its favor."

The great needs of the world today, said Dr. Millikan in closing, are "detached, objective thinking, and to get a little old-fashioned religion."

PLANS FOR SEWER GO ON PAPER
Work on Screening Plant at Hyperion and Laying of Mile of Pipe Studied

City Engineer Griffin was yesterday instructed by the Board of Public Works to present at once detailed plans and specifications for the first two sections of the sewer for the first \$12,000,000 bond issue authorized by the voters at the August primaries. These three divisions of the work are the grading of the site at Hyperion for the new screening plant, the construction of a plant, and the one mile of cast-iron pipe which is to be laid on the bed of the ocean and is to be the new outlet for Los Angeles sewage.

Tentative estimates of the cost of these three units were submitted to the board yesterday by the City Engineer, and according to them, the actual cost of the three units would be \$1,450,350. In case the board decides to advertise for bids for private contractors, the City Engineer said, these contractors' profits and expenses would probably increase the amount \$1,077, making the total \$1,749,427.

The cost of the iron pipe on the bed of the ocean, the City Engineer estimated, will be \$121,500. The screening plant will cost \$250,000, the incinerator at which will be burned the screenings from the sewerage will cost \$121,400.

These three units will be the first built by the board in carrying out its pledge that if the bonds carried immediate steps would be taken to permanently abate the nuisance at the beaches caused by the turning of Los Angeles sewage into the ocean at Hyperion.

Rail Strikers Arraigned in Federal Court

R. H. Clements and John A. Stocklin, two of the striking shapemen of the Santa Fe Railway, indicted for conspiring to impede and prevent interstate commerce in the transportation of passengers and mails at Needles, Cal., when the strikers stopped several transcontinental trains on August 10, were arraigned in U. S. District Judge Bledsoe's court yesterday.

Both men pleaded not guilty and the trial will be set next Monday when the other defendants, C. E. Holly, L. E. Woodcock, C. I. Fox, E. H. Reynolds, E. Arkauer and J. H. Frasier, appear to plead to the conspiracy indictment.

It is the intention of U. S. District Attorney Burke to secure as early a date as possible for the hearing.

Not "Liberty" But Slavery

The Thirteenth Amendment freed thousands of human beings from slavery; the Eighteenth Amendment has freed other thousands, slaves to the drink habit.

No one dreams that there can ever be a return of the form of slavery which Lincoln's pen abolished, but there are men in this country today who desire and hope that intoxicants shall again be given power to degrade and enslave their fellow-creatures.

These men, who grew rich on the money squandered by victims of the drink habit, are making desperate efforts to procure the election, this fall, of Congressmen who will vote for "modification" of the Prohibition laws.

The huge campaign fund of the allied liquor interests has provided an army of workers, who are active in all parts of the country. The plea for "beer and light wines" is their opening wedge, and their slogan is "Personal Liberty" (!)

Dr. Ernest H. Cherrington, General Secretary of the World League Against Alcoholism, says world prohibition is a possibility within the next ten years. It does not seem possible that the people of the United States will sanction any backward step toward alcoholic slavery, but every friend of progress and reform may well do his or her individual utmost to defeat the evil influences now so aggressive.

You can learn how the forces opposed to Prohibition are operating by reading the daily articles now appearing in The Christian Science Monitor. If your newsdealer cannot supply you with the Monitor, send in your subscription on the coupon below. Please note our offer of a special TWO WEEKS' TRIAL SUBSCRIPTION for Twenty Cents.

The Christian Science Monitor
AN INTERNATIONAL DAILY NEWSPAPER

Published in Boston and read throughout the world. Devoted to giving clean, wholesome news of the day, and to the protection of national interests. The Monitor has its own correspondents in all principal cities and gives to its readers authentic reports of important events. It does not print morbid details of crime, tragedy or scandal. A full page of editorials deals fearlessly with vital questions of the hour.

PUBLISHED BY
The Christian Science Publishing Society
BOSTON, MASSACHUSETTS

Joliet, Illinois, Sept. 30, 1922.
The Christian Science Monitor,
Boston, Mass.
Your splendid editorials and news items, dealing with the vital question of law enforcement of the Eighteenth Amendment, have roused my enthusiasm.

No newspaper in our history has been more far-seeing nor more courageous. All honor to you!

The propaganda—at first insidious, now brazen—which seeks to override the will of the people, has never been so clearly and courageously pointed out as in the columns of the Monitor.

I enclose one dollar, for which please send the Monitor to my home.
Sincerely yours,
(Signed) JAMES L. WOOLSON

RESCUER REMEMBERED
Late Sugar King Makes Provision in Will for Man Who Saved His Life Many Years Ago

Yesterday, twenty-four years after W. A. Gerry of 890 South Gaffey street, Los Angeles Harbor, saved the life of the late Henry T. Oxnard, Mr. Gerry received a draft for \$100 from the Oxnard executors with a letter informing him that an oil portrait of the sugar king.

Back in 1898 Mr. Oxnard was the paymaster of a sugar company near China that later became a branch of the American Beet Sugar Company under his control. Mr. Gerry was working on a ranch in the hills back of China.

One evening the paymaster was carrying his company's payroll, totaling several thousand dollars, back to an outlying camp of the concern when two masked men stepped out of the brush and stopped his horse. He was relieved of the payroll and before he had an opportunity to dismount the bandits cut the horse's reins and caused the animal to run away.

Three miles up the desert trail Mr. Gerry stopped the runaway horse and helped the rider to dismount, the latter being exhausted after his efforts to stop the frightened beast. It was the last time either of the two men saw each other.

Henry T. Oxnard came rapidly to the front as one of the country's industrial leaders and at the time of his death several years ago he was head of the American Beet Sugar Company with its vast field of subsidiary concerns and activities. Mr. Gerry is now an orderman in the employ of the Hammond Lumber Company at the port.

There is blessed relief in each jar of Resinol

Only those who have tried it can realize the comfort that Resinol Ointment brings to sufferers from skin trouble. Even in severe, well-established cases of eczema or other itching disorders it promptly allays the irritation and hastens the healing.

It is easy to verify—has no unpleasant odor, and makes a most valuable household treatment for cuts, burns, chafes, etc.

Send for free sample by mail through Resinol Co., 1000 Broadway, New York City.

Sawtelle Folk Vote in Favor of Dry Regime

By a "Times" Staff Correspondent
SAWTELLE, Oct. 3.—Eighty-four per cent of the citizens here have pronounced themselves in favor of the Wright bill enforcing the national prohibition laws, according to a poll taken by the League for Law Enforcement and made public today. Of the straw vote taken, 1111 registered voters declared themselves unequivocally in favor of the bill, sixty-nine opposed it, and 130 registered themselves as doubtful.

STEALS FOR DOPE
Shoplifter Says He Wanted To Buy Morphine

Admitting he stole to get cash with which he intended buying morphine, Joe Tint, living at 424 1/2 Centennial street, yesterday pleaded guilty to shoplifting before Police Judge Chesbrough. The heavy sentence of a \$350 fine or 180 days was imposed, Tint taking the jail sentence. He was caught at the Villa de Paris by operatives from the Retail Dry Goods Merchants' Association.

Sailor Faces Serious Check Forgery Charge

George W. Hazen, secret service agent of the United States Treasury Department was successful in rounding up Paul Harold Eggman, a sailor aboard the U.S.S. Melville at San Diego on the charge of forging signatures to nine government checks, aggregating about \$1000. The young man is arrested to have made a complete confession to the commander of the Melville, Capt. E. A. Barker.

The use of a dash sign between the dollar mark and the figures denoting the amount, was one of the pointers that led to the arrest of Eggman.

He was a seaman first class, sailing as yeoman, and he is said to have forged the name of Ensign E. A. Edlger to the checks, all but two of which passed through the San Diego banks.

Eggman declared that he had spent a large portion of the money with two young women in Los Angeles, according to officials. He says that he lost some money in speculation, the officers declare.

TELEGRAMS EVIDENCE IN COURT CASE

Cryptic Messages Read in Suit to Decide Business Ownership

Cryptic telegrams introduced at the trial of two suits by J. E. Bennett against Paul E. Richter to recover goods and for \$125,000 damages, and against Sheriff Traeger in a claim and delivery action, tried by Judge Hahn yesterday and taken under submission, turned out to convey a tip.

Attorney W. E. Lacy, counsel for the defendant, Richter, had a translation of the telegrams which, read conjointly, stated that Mr. Richter was in Los Angeles getting information, plans to lay low and then try to force the collection of an old debt.

The telegrams, read separately, are a mere jumble of words. They were sent by Miss Lois Martin of Denver to Mrs. R. J. Martin of 3451 South Harvard Boulevard.

She did not understand them until she read her sister, Cora, of this city, to be sure to send the two telegrams to Mr. Cunningham.

It appeared from the evidence that Mr. Richter brought suit against Walter E. Cunningham in his own name as trustee of the National Advertising Company to collect two notes. This suit is pending. He then attacked the advertising business of Mr. Cunningham.

The latter asserts he sold the business to Mr. Bennett, Mr. Richter declares that Mr. Cunningham owns the business.

Attorney Lacy is seeking to show that the purported transfer of the advertising business did not take place on the date stated by Mr. Richter, but that Miss Lois Martin, Mr. Cunningham's former secretary, wired that Mr. Richter was coming to Los Angeles, the telegram being dated January 23, and that Mr. Cunningham and Mr. Bennett got together and made a bill of sale of the business. This is denied by Mr. Cunningham.

The question is, who owns the business?

THE FIRST INDICTMENT CONTAINED three counts and charged that at various times she had mailed to certain parties copies of an indecent and lascivious pamphlet. The second bill set out that she had placed in the mails copies of a pamphlet, entitled, "The New State," advocating Communism and Socialism.

Can you be ready by the 17th inst.?" asked the court, addressing himself to the fair defendant. "I'm ready right now," said "Madame."

And that was the case fixed. In passing out of the courtroom, "Madame" seemed to be closely clipped and looked hard at the crowd attracted by her appearance in court. She was unaccompanied by an attorney.

INFORMATION BUREAU FORMED BY ALUMNI

DARTMOUTH GRADS PLAN ANNUAL CELEBRATION FOR OCTOBER 15

At the request of several local schools, a special information committee was named yesterday by the Southern California Alumni Association of Dartmouth College at the regular weekly luncheon of the association at the Bull Pen Inn.

The committee will act as an information bureau on the Pacific Coast regarding Dartmouth activities. Its membership includes V. R. Salinger, chairman; Kirk Charles, Dr. George P. Laxon, John J. Troy, Roland Foss, James J. Norton, Richard B. Merrill and C. G. Milham, secretary.

Plans were also set under way for the celebration here of Dartmouth night on Friday, the 15th inst. Meetings of Dartmouth men are held throughout the world on this occasion every year. The local celebration will be held at the residence of V. R. Salinger, 1793 Milan avenue, South Pasadena.

More than fifty Dartmouth alumni here are expected to gather for this Dartmouth night.

DEFENDANT IS HIS OWN ATTORNEY

Cross-Examination of Witness Draws Epithet and Resultant Fine

"Little Mack," as he is known to the police, conducted his own defense yesterday in Justice Brown's court, where he is charged with stealing an automobile belonging to R. C. Thompson, an actor.

The defendant gave his true name as Walter Lehman. He has also been known to the police as Gene Doran and William Lenahan. His severe cross-examination of Milton Leeds, a witness against him, brought out the remark that the witness that the defendant was "a rat," the remark costing Leeds \$10, as the court held him in contempt.

"Little Mack" was wile to answer on charges of grand larceny and joyriding. In spite of his assertion that he did not know how to drive a car and could not have stolen one, Judge Atty. Kline presented testimony indicating that he had once acted as chauffeur for police officials. Bail was fixed at \$500.

When the defendant left the courtroom he was in a special bodyguard, saying he feared someone would attack and beat him.

SPEEDER HIT HARD

Loses License, Gets Fined and Goes to Jail

For driving his automobile down Broadway at night at a high rate of speed, A. R. Wilson of 232 North Fremont street was ordered to pay a fine of \$100, spend thirty days in jail and surrender his operator's license for thirty days after the completion of the jail sentence or Police Judge Chambers yesterday.

ANTI-SALOON LEAGUE HEAD NOW IN CITY

Dr. A. H. Briggs Comes Here to Take Part in Fight for Wright Amendment

Dr. A. H. Briggs, State superintendent of the Anti-Saloon League and leader in the campaign to carry the Wright Amendment Act at the November election, arrived in Los Angeles last night to aid Dr. M. M. Montgomery, Southern California's superintendent of the league.

"We believe we are making a winning fight," declared Dr. Briggs. Early apathy has changed to deep interest. I find throughout the State that Mr. Richardson's stand for the strict enforcement of the Volstead law is winning him the support of all citizens who believe in upholding the Constitution."

Early apathy has changed to deep interest. I find throughout the State that Mr. Richardson's stand for the strict enforcement of the Volstead law is winning him the support of all citizens who believe in upholding the Constitution."

Early apathy has changed to deep interest. I find throughout the State that Mr. Richardson's stand for the strict enforcement of the Volstead law is winning him the support of all citizens who believe in upholding the Constitution."

Public Dance Halls Upheld for Strictness

Dancers who participate in Tropicana frolics at local ballrooms must to the mark so far as rules of conduct of the Los Angeles Dancing Men's Association are concerned.

Both Superior Court judges and police court judges have ruled that they will extend no leniency to offenders against public order in these places.

Judge Richardson set the police court precedent in the case of Theodore Marks, when he fined Marks \$50, and sentenced him to thirty days in jail, suspending both on the condition that he should not visit any Los Angeles dance hall for a period of two years.

Recently Judge Burnell of the Superior Court in a damage suit for \$10,000 filed by J. Cyrus Gould for election from a local dance hall ruled in favor of the pavilion owner and assessed the costs to the plaintiff, scoring him roundly.

NOVELTY STORE BURNS

Blaze from Packing Cases Draws Investigation for Arson

Fire of an undetermined origin early yesterday morning caused approximately \$5000 damage to the George R. Healey novelty manufacturing establishment at 850 South Santa street. The blaze was confined to the rear of the building. Due to a report that the blaze apparently broke out from limited packing cases in the alley at the rear Police Detective Bean of the arson squad investigated for incendiarism.

FAKE RABBIS TARGET OF DRY AGENTS

Bootleggers Who Assume Wrong Names and Draw Wine Under Scrutiny

New regulations issued by State Prohibition Director Rutter and received by Prohibition Agent Dole yesterday are aimed at the practice of bootleggers who assume Jewish names, call themselves rabbis and withdraw sacramental wine for mythical congregations.

The law allows ten gallons per year to each member of a congregation, the rabbi withdrawing the liquor. Hereafter, under the new regulations, it is suggested that only two gallons per member per year be withdrawn, and rabbis are required to keep accurate card-index records of their congregations and the disposal of the wine withdrawn.

Prohibition officials also maintain that unfermented grape juice is just as usable in the sacramental ceremony as wine.

Withdrawals of sacramental wine have decreased 70 per cent since four inspectors were set to watch the practice last April. Hebrews and church heads are co-operating in running down the fake rabbis.

Breaking Glass Foils Daylight Store Robbery

One of the most daring attempts at burglary known to local police authorities was made yesterday when, shortly before 5 p.m., while hundreds of persons were in the vicinity, a man calmly picked out the plate glass in the front door of "Money Back Harry's" haberdashery at 211 South Spring street and walked inside.

The store was closed while the proprietor participated in the celebration of the Jewish holiday.

In setting the plate glass back into the molding of the door the robber dropped it and the sound of splintering glass attracted the attention of Patrolman Hammond. Hammond entered the store and saw the robber standing behind several large packing cases in the rear of the establishment.

The suspect was taken to the City Jail where he gave the name of O. C. Francis, age 25 years. He was charged with burglary.

MANY BUILD CABINS IN FOREST RESERVE

Supervisor Charlton of the Angeles National Reserve, reports that for the last three months preceding there were 253 permits issued for the erection of permanent homes and summer cabins.

The most are to be located in the Big Bear Camp Baldy, Little Bear and Seven Oaks country.

The permits previously issued amount to about 2500, covering every part of the reserve.

OWNERSHIP OF VESSELS IS PRIVATE

Government Steps Out as Settlements Are Made on Tonnages in This Harbor

After four years of combined government and private operation, the 400,000 tons of freight and passenger tonnage in service out of Los Angeles Harbor to Atlantic, Oriental and Gulf ports, again is under private ownership.

Commissioner Frederick I. Thompson of the Shipping Board yesterday completed the board's settlements with the pioneer purchasers of its tonnage after an all-day conference in New York. Four of the obligations canceled had a direct effect on intercoastal shipping.

In a dispatch received here last night, Mr. Thompson said that in all the board had settled with about seventy purchasers holding 140 vessels of more than 1,000,000 tons. The program originally laid down had been consistently followed, he added. He referred with pride to the fact that the Shipping Board has been obliged to seize a delinquent ship in only one instance—that of the Atlantic, Gulf and Pacific Steamship Company.

The Williams Steamship Company, which originally contracted for four steamers aggregating 36,351 tons deadweight at \$200 a ton, has settled with the board on a basis said to be \$55 a ton. Current world market prices for similar vessels range from \$30 to \$30 a ton. Mr. Thompson said that although a final settlement with the Luckenbach Steamship company has not yet been made, a basis of agreement has been reached.

Haste to Board Street Car Costs Man His Life

An attempt to board a moving street car yesterday cost Frederick Krahwinker, aged 67 years, of 210 1/2 East Sixty-third street, his life.

According to University police officers, who took the injured man to the Receiving Hospital, Krahwinker, not waiting for a two-car Moneta-avenue train to stop at the intersection of Fifty-fourth street and Moneta avenue, leaped on the rear of the front car in the middle of the block. His feet slipped from the steps and he fell under the front wheels of the rear car.

While Chief Police Surgeon Goodrich was preparing to amputate Krahwinker's left leg, he died. The body was removed to the Riedeman undertaking establishment.

PICK-UP PASSENGER REFUSED DAMAGES

Because Thomas Renowden "caught" a ride in a machine which was wrecked by a Pacific Electric train, he was yesterday denied \$50,000 damages by a jury in Judge Dehy's court. Testimony showed that Renowden was a passenger in the machine of Ross L. Putnam.

The accident occurred in a garage in the rear of the Zimmerman home. The fire department was called and checked the resulting fire before it could damage the structure seriously. Mrs. Zimmerman was treated by Dr. Frank Sweet, police surgeon.

OAKS' RULES ON TRAFFIC BEAR FRUIT

Five Less Accidental Deaths Last Month Than During August

Indicating that Chief of Police Oak's efforts in curtailing the number of traffic accidents have born fruit, figures compiled by Police Statistician Lyons yesterday show that there was a decrease of five deaths in September as compared with the month previous.

The total number of persons killed in traffic accidents in the city and county in September was thirty-eight, while in August the total was given as forty-three.

While there was a decrease in casualties, the number of accidents in the city showed an increase. In September 489 persons were injured, making a total of 4542 persons injured since the first of the year.

Canaries Dead in Apartment; Landlord Pays

The death of two canaries following the ejection of Nell W. Erickson and Mrs. Eileen B. Erickson from an apartment-house in Venice yesterday, resulted in the couple winning an \$18 judgment against James Livingston and Alice Livingston, owners of the building. The birds, owned by Mr. and Mrs. Erickson, died after the Erickson apartment had been locked by Mr. Livingston.

The decision, which was made by Judge Dehy, sitting for Judge Myers, also required that Mr. Erickson pay Mr. Livingston \$11 rent on the apartment. It was charged that when the owners put a padlock on the apartment door and Mr. and Mrs. Erickson were unable to enter and care for their birds, the canaries died.

WOMAN SAVES HERSELF FROM SERIOUS BURNS

PRESENCE OF MIND AVERTS BAD ACCIDENT WHEN GAS TAKES FIRE

By a "Times" Staff Correspondent LONG BEACH, Oct. 2.—Mrs. Helen Zimmerman of 1030 Walnut avenue, this city, was painfully burned about the face and arms at her home this morning when a pan of gasoline with which she was cleaning a dress, became ignited from a near-by gas plate. Although enveloped for a moment by the flames from the gasoline, Mrs. Zimmerman kept her head and, enveloping herself in a heavy rug, put out the flame in her clothing.

The accident occurred in a garage in the rear of the Zimmerman home. The fire department was called and checked the resulting fire before it could damage the structure seriously. Mrs. Zimmerman was treated by Dr. Frank Sweet, police surgeon.

By Gene Byrnes

WINNIE WINKLE, THE BREADWINNER. It's Hubby's Fault, Anyway

NOW THE WADS' VACATION WILL BE COMPLETE!

NOTE: The Times Daily Wad Comic-Strip Contests has been discontinued until further notice. The Wad family, whose daily adventures in Los Angeles have amused Times readers for the past year, during which time more than \$1500 has been paid by The Times for available ideas for the Wad strip, demands a vacation. Its members point to the fact that more things of a strenuous nature have happened to them in the last year than to any other family in Los Angeles and they insist upon a rest. Mr. Wad is taking Mrs. Wad and the baby to Honolulu, and Tight says he will go along if Mr. Wad pays his way, not otherwise. For these reasons the Wad have been discontinued for the present. The prize-winning ideas submitted during the last week and possibly a few others will appear in this space.

OUR FIRST SHOW

People and Their Troubles

Listen, World!

WRITTEN AND ILLUSTRATED BY C. B. ROBINSON

It was noon and I was buying my lunch at the Corner Grocery. The school across the street was also buying its lunch at the Corner Grocery. Fifty strong youngsters surged in—little tads and big ones bobbed hair and curls. First Long Pants and baby blouses.

"Gimme an ice cream cone n' a orange scrunch n' two of them n' five of that and how much is that?" I said. They bargained.

For your enlightenment let me explain "these and those and that" which constituted that juvenile lunch. "All day suckers"—suckers, both sweet and sour, but the preference being given to the "dill" variety, large, limp horrors of the general consistency of a pale green, boiled elephant—sorted masses of marshmallow paste sprinkled with nuts and coated over with chocolate—coolies—maddy marbles—parade jars containing syrup, to be crunched and swallowed and chewed—gum and a dozen varieties of soft drinks. These were the favorites. I watched carefully, and returned the next day for verification.

Each day, and every day throughout the school year, the children assembled there in droves, each with his or her handful of small change and a determined look on the ears with the foregoing menu.

Now, I am a remarkably husky young woman and, thanks to an oatmeal and prune diet when young, I possess the gastronomic daring and health of a boa constrictor. But I would qualify the thought of consuming any such bill of fare. Yet such is the food upon which Young America is being fed in the cities—and such is the method by which the large majority of mammas save themselves noontime bother.

When the children had gone, I turned to the comfortable old grandmother who presided over the counter and wagged a significant finger under my nose.

"Miss," said she, "they ain't fit to raise rabbits!"

While this potent weapon against diphtheria, you even quote some medical graduates as "authority." But these are doctors—and doctors aren't there; just the same as there are lawyers—and lawyers. Now if we want to find out what lawyers in general think about certain aspects of legal ethics, for example, do we not go to lawyers in positions of trust, or to the membership of legal societies, or to the law faculties of the universities? The same applies to questions of health. If you want to find out what physicians think about the usefulness of animal experimentation, you go to the membership of the Los Angeles County Medical Society or the medical faculty of an university. You will find 100 per cent in favor of the question. We should not let our "will to believe" cause us to put too much credence in the statements of physicians who lived decades ago before medicine approached the status of a science, nor of certain doctors of today, whose standing is such that they cannot mingle with their fellows.

I fear you have indulged in an judgment in your estimate of baby experimentation based on "a report of 100 tubercular lores in young children" which you quote from the Archives of Pediatrics. These simple tests are not experimental; they are perfectly harmless, and they are productive of greatest good in the case of the mother and treatment in tuberculosis of childhood—a very common disease. Let us be sure of our facts before we formulate our beliefs.

Questions Answered

WRITTEN AND ILLUSTRATED BY C. B. ROBINSON

Question: When were matches invented?

Answer: In the seventeenth century. Godfrey W. H. of England produced a substance which would ignite by friction and into which splinters of wood were dipped. This is probably the origin of the Lucifer match. In 1805 a "phosphorus bottle" into which sticks or matches coated with sulphur were thrust was invented by a man named Chancel of Paris.

The first Lucifer friction matches to be commercially developed were made by an Austrian, named Treischel, Vienna, Austria, 1822.

Q: Where is the largest riding hall in the world?

A: The one at West Point has this distinction. Built in 1911, its interior measurement is 125 by 345 feet.

Q: What are the laws of England with respect to labor unions and strikes?

A: Unions were legalized in England in 1824-25. In 1871 the Trade Union Act was passed which declared unions not to be illegal combinations in restraint of trade. This was followed in 1875 by the Conspiracy and Protection of Property Act, which freed labor from

who persists in stating positively that the Bryan who made the statement the other night while lecturing here is William J. Bryan, the man known during the late war as "the Prince of Peace." My friend was so positive about this that he even wanted to bet me \$10, but as I have a law against betting, and besides this he was so positive that he was right, I didn't bet with him. I don't bet with Bryan, either, but I am certain that it wasn't our great Christian statesman, the man with the high-sounding title, whose sole mission in life is only to help suffering humanity; a man who I am certain is a law against betting, and without suffering the pangs of conscience.

CHAS. C. STILLSON.

Thomas Thunders

LOS ANGELES, Sept. 29.—[To the Editor of The Times:] I have waited long enough for you to publish my last letter, the one commenting on the remarks made while my preceding letter was in the hands of the editor. I am a correspondent in your column who first began the discussion. Please advise me at once through your column why you have not printed this communication.

I can only suppose that your ignorance of both logic and the English language is the occasion of that, which under ordinary circumstances I might consider an oversight.

The tone of this letter should, I think, caused you to realize that as a correspondent, I am no man to be lamped with, and that every word I write should, and must, be published. This much for the editor.

As for the ill-informed and worse-lettered scribbler so bold as to engage me in argument, I herewith give the lie to any letter he may write on any subject or expressing any opinion, whatever. Thus am I saved henceforth the annoyance of having to answer them.

THOMAS GILMAN.

CLUB REORGANIZED

National activities are planned by the newly reorganized Story Writers' Club, which commenced yesterday that meetings will be held weekly, beginning tomorrow night, in Room 21, Music-Arts Building, 232 South Broadway. Carl Leslie T. Peacock is president, Minnie Oliphant and Patrick F. Kirby vice-presidents, and Edward B. Lee secretary-treasurer.

On board of these ships there are fathers, mothers, sisters, brothers, children, husbands and sweethearts, and I hardly believe—no matter how bloodthirsty and un-Christian a man may be—that he would feel that he was so close to such horrible sentiments and still expect to be recognized as anything but a coward in his heart.

That I regret to say, I had an argument with a friend of mine,

and I hardly believe—no matter how bloodthirsty and un-Christian a man may be—that he would feel that he was so close to such horrible sentiments and still expect to be recognized as anything but a coward in his heart.

OLD STILL HAVE PLACE IN LIFE

Ebell Club President Plays World for Young Idea

Service to Community Sole Symbol of Youth

Drive for Rest Cottage is Inaugurated at Meet

BY MYRA NYE

"The world today is for the young."

Bringing that statement as a glittering generality of spurious times of whose meaning she disclaimed any knowledge, Mrs. Grantland Seton Long, the new president of Los Angeles Ebell, yesterday, before a crowded house, opened the club season in Los Angeles with an address on "Club Consciousness."

"Let us recognize," said Mrs. Long, "that we are women of middle age, that we know life, that we are young as long as the world needs us. The women of ages past, have sacrificed and formed a bridge over which we walk. Age-old obstacles in the pathway of women have disappeared and we stand now unhampered and free, thus able to be better wives, better mothers, better leaders of the young, better artists and scientists—in short—better citizens. So our opportunities are greater than ever before and the world is not only giving them to us, but begging us to use them."

LIKE TO BE HELD
"If we women knew our power no men on earth could hold us," Mrs. Long paused and in her altogether feminine way, added almost in a whisper, "But we like to be held—at least for a little while."

The president's address, which was the highlight of the day, outlined the purposes and the activities of this large club of 2700 women in an inspiring way. The enthusiasm of the new leader was transmitted to the personnel of the club who responded to her periods and perorations with repeated applause and many baskets and bouquets of gorgeous autumn flowers at the close.

The membership drive for Rest Cottage was inaugurated at the initial meeting with the goal named "Every member of Ebell a member of Rest Cottage Association." Mrs. Almon Bartlett Ross, chairman, presented the plea and told of the tired mother with ten children, who is struggling for peace and health, of the three- or four-nursed and ten business women, whose broken health is being salvaged at this place of true rest.

CITY PLANNING
As a result of Mrs. Long's address, concrete work was started along the lines of city planning. With Mrs. A. B. Cook appointed as chairman, and her assistants, Mrs. Sumner P. Hunt, Miss De Laguna and Miss Jeanne Adams, work to discover, map out and tabulate all available spots, which might be converted into parking places, little parks and breathing spots for the beauty and comfort of the city was started. Mrs. Long announced that two members of the club had bought, at high prices, two properties simply to save them from exploitation commercially and intellectually.

A gavel made from the wood of the largest Sequoia in the State, given to Mrs. Long, presumably by her husband, "a man, who has the good of Ebell very much at heart," was presented to the club as a "symbol of strength, power and perpetuity," which were the new president's hope for the "radiant club."

Ewart Williams, tenor, after his manner of fine musician, gave three groups of songs. In the first group, delightfully varied, were "The Eagle" (Carl Busch), "Bonnie Sweet Home" (Gilbert) and "The Bedouin Love Song" (Chadwick). This number was indicative of the high character of the entire program of song.

GIVES REPORT
Mrs. Frank Howell Stanberry, who was a delegate from the club to the general federation convention held at Lake Chautauque in June, gave a detailed report of the ten days' session in New York. She reported that it was said from the platform that this part of the State was regarded, until the convention, as a place of "climate, film stars, murders, vain women and flapper girls," but at the close, when Mrs. William Fitzgerald, president of the State federation, made a tremendous hit in extending the invitation for the

BANQUET TO PRODUCER IS CANCELLED
Frohmman Succeeds in Having Money Turned Over to Actors' Fund
"The money you're planning to spend on a testimonial banquet to me would be immeasurably better spent in the cause which the Actors' Fund represents," said Daniel Frohmman, president of the fund yesterday in urging the cancellation of the banquet to have been tendered him at the Alexandria tonight.

"It is much better to devote the subscription money paid by the 300 persons who have taken reservations to the needs of the fund. There are sick, disabled and injured members of the dramatic and motion-picture profession that need our help. Starving people can be assisted with this money," Mr. Frohmman told the committee.

After agreeing with his views the committee, yesterday, announced that the money will be used in purchasing tickets to the performance of "Midnight in the Dream" at the Hollywood Bowl Saturday night, when more than 100 star-struck greenbacks will take part in the Actors' Fund benefit.

OIL OPERATOR GIVEN TIME TO FILE BRIEF
CASE BELIEVED TO BE TEST FOR SECURITIES ACT UP IN COURT
Forty days' time in which to submit arguments in brief in the case of E. H. Lamb, oil operator, charged with violation of the Corporate Securities Act, was allowed by the District Court of Appeal when the case of Lamb, who is suing for a writ of habeas corpus, was called in Division Two, yesterday. Attorneys for the prosecutor, Corporation Commissioner Daugherty, agreed with Lamb's lawyer to this proceeding.

The charge upon which Lamb is being prosecuted grew out of the alleged sale by the operator of undivided interests in oil lands in the Santa Fe Springs district, in

Diet and Health

By Lulu Hunt Peters, M.D.

Author of "Diet and Health, with Key to the Calendar"

THE PASTEUR TREATMENT

The definition of hydrophobia given in Rosenau is as follows: Rabies is an acute, specific, rapidly fatal paralytic infection, communicated from a rabid animal through a wound usually produced through biting.

Men contract the disease from some lower animal, usually the dog. The specific principle is contained in the saliva and the nervous system of animals suffering with the disease. The infection, therefore, may be conveyed by licking, provided there are open wounds in the skin. Rabies exists practically all over the world. It has been eradicated from England on account of their muzzling and quarantine laws, but during the World War it was reintroduced by dogs that were carried in spring machines and so escaped the quarantine laws. Germany also has eradicated hydrophobia by its muzzling laws.

In 1918 forty-five deaths from rabies were reported in the United States. Rabies is commonly supposed to be prevalent during the summer months but Rosenau states it is more prevalent in cold weather. After being bitten by a rabid dog, it takes a certain period of time for the virus to travel along the nerves to the central nervous system and multiply sufficiently to produce its poison effects. This period varies from fourteen days to a year or more. (In the case of this long period the disease is probably latent—arrested but still alive.) The average period in man is forty days (it is apt to be shorter in children.) Dogs twenty-one to forty days.

The period of incubation depends upon the amount and the virulence of the virus and upon the position and size of the wound. The nearer it is to the brain and spinal cord the shorter the time. It is less than a day if the bite of a dog is infective three days before the dog himself may manifest the disease, so a dog bite should be cauterized by nitric acid and other precautions taken, as I told you last week, and the dog locked up and watched to see if he develops the disease. If he does develop the disease then the bitten individual should immediately take the Pasteur treatment.

The Pasteur treatment has been

next meeting in 1924 with Los Angeles. The California Federation of club federations acknowledged a change of opinion and voted unanimously to accept the invitation.

WOMAN'S CITY CLUB
J. Blitt Wilson, whose petition to run on the Socialist ticket for Governor of California is not yet officially filed, spoke in behalf of his own candidacy at the Women's City Club, whose members are "mobile in their social emotion" for the good of the commonwealth. He said that as Nero fiddled while Rome went over an abyss, so the supposed statesmen fiddled over nothing while western civilization went on the rocks.

"Mr. Woolwine is trying to pull the wool over the wine question and I promise he can't fulfill," said the speaker, and further attacked the platform and policies of his chief opponents.

He urged the women to go "with their intelligence" and to "redeem the State" by voting for him as Governor. He protested that he was not an "extreme" nor a "radical" and that he was decidedly for the \$100,000,000 Water and Power Act and the women ought to be his supporters.

Mrs. W. P. Cunningham unexpectedly called upon the women of this group to come to the Daugherty and answer questions to which request two representatives responded.

Home from Honeymoon
Mr. and Mrs. David J. Dufresne (Alice Macadam) of Detroit, whose marriage took place September 1st at the First Presbyterian Church in Santa Monica, have returned from their honeymoon and will be at home to their friends at 1 St. Francis Court, Ocean Park.

Return from Tour
Mr. and Mrs. James P. Burns of Wilshire Boulevard have just returned from a six weeks' motor trip through California, Oregon, Washington, and British Columbia. They spent some time in Victoria, Vancouver, Portland, San Francisco and Del Monte.

Back from Beach
Mr. and Mrs. William Swain James, who have been absent from the city for the past five months, spent at Hermosa Beach, are leaving for a visit to Redlands, but will be at home at 521 Shatto Place after October 15.

Well-Known Artist Here
Stout Hanna Cuthbertson, late of St. Louis, is a guest of Mrs. C. Durrell. She will sail shortly for China. She is a well-known artist and will exhibit her work in the largest rug dealers in Faking. She is a cousin of Albert Bigelow Pais.

At Garden Wedding

SOCIETY

BY VIRGINIA WOODS

Plan Brilliant Affair

Special full dress uniform has been ordered by Admiral Eberle for officers attending the Naval Ball at the Ambassador tomorrow evening. This will be the first time that the full dress uniform will have been worn by the officers of the Navy in seven years, it having been abolished during the war and restored to use in Navy orders only a month ago. A brilliant night therefore awaits those attending the ball.

It will begin at 9 o'clock, and guests are all expected to arrive on time, as punctuality is one of the things observed in naval circles. Before the ball, at which there will be a midnight buffet, numerous hosts and hostesses will entertain with private dinner parties, many of them to be at the Ambassador in order not to arrive at the ball late.

George Ennis is arranging a big dinner party for Navy folk and will have a company of twenty-four. Mrs. Charles H. Sharp is to have a coterie of fourteen, planning to entertain her dinner party at home. Mrs. Albert J. Bauer, Mrs. Llewellyn Cheney are to have a dinner company, going on later to the ball. Mrs. Charles Jeffers is to entertain at dinner previous to the ball and there is to be a table for debutantes and junior officers dining at the hotel first.

Others on the reception and floor committee besides those mentioned in Sunday's paper are Walter Perry Story, Harry J. Bauer, Louis Cole, H. W. Robinson, George C. Thomas, Jr., E. L. Doherty, Joseph Francis Sartori, Earl Anthony, Keith Spalding and James H. Martin.

Here from Louisville
Mrs. A. L. Bass of Louisville, Ky., and her two children are guests of her sister, Mrs. Howard Field, in San Francisco.

Mrs. Grace is to entertain at luncheon tomorrow at the Los Angeles Country Club in honor of Mrs. Bass and has invited twenty guests. Later she is planning a large tea for her sister. Dr. Bass expects to join his family later on.

Mrs. Wellborn Returns
Mrs. Marshall Wellborn has returned after a delightful visit with her sister, Mrs. Alexander Field, in San Francisco.

For Naval Set
Among the charming functions in naval circles was the tea on Saturday which Mrs. Spencer Higgins, wife of Lieut.-Commander Higgins, U.S.N., New Mexico, gave in honor of Mrs. H. Williams (Elmire Dowell of San Francisco), who is the bride of Dr. Williams of the U.S.S. Mercy. There were fifteen guests, wives of the naval officers stationed at Los Angeles Harbor.

For Bride-Elect
In honor of Miss Meldon Scheu, who is to marry Chauncey Dekker on November 1, Mrs. Fred Turner of North Hollywood Boulevard gave a bridge tea yesterday for a company of sixteen. The flowers were all in autumn shades.

Bride Complimented
The ceremony was said under an arbor of vines and flowers. The bride wore a draped gown of white charmeuse and lace and carried white roses and lilies of the valley. The couple left after the ceremony for a motor trip to the Yosemite Valley and Northern California and after several weeks will reside at Taft, where Mr. Dodd is a member of the staff of the State Bureau of Mining.

The bride is a graduate of Smith College and for two years was a teacher at Miss Barker's school at Palo Alto. The groom is a graduate of Stanford University.

Entertain at Bridge
Miss Marjorie Rankine, daughter of Dr. and Mrs. C. M. Rankine of Norton avenue, gave a bridge tea Saturday afternoon for a company of young girls including Misses Emily White, Esther Hackley, Ann Thompson, Meriam Ried, Virginia Robinson, Theodora Osterloh, Margaret Calder, Vivian Vance, Charlotte Edwards, Janet Morris and Ethel Robertson.

BE CAREFUL

Don't be fooled into taking the "just as good" brands or imitations. Be guarded against false and misleading statements about baking powder. Remember Calumet has always given perfect satisfaction. Don't take chances. Don't experiment.

USE

CALUMET

The Economy BAKING POWDER

And you will always be sure to avoid failures—waste of time—money and materials.

REMEMBER

Calumet complies with all pure food laws both state and national and contains only such ingredients as have been officially approved by the United States food authorities.

Don't forget a pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

THE WORLD'S GREATEST BAKING POWDER

Good Storage EGGS POACH as Well as Fresh EGGS

Poaching is the hardest test for an EGG. Good storage EGGS poach just as well as Fresh EGGS. They make just as good Omelets, Mayonnaise, Cakes, etc.

And why not? The EGGS come from commercial poultry ranches where the hens are kept clean and healthy and fed on GRAIN.

EGGS selected for Storage are of fine quality and carefully candled. Usually they are placed into Storage the same week they were laid.

Remember that EGGS are seasonal products like fruits. EGGS are stored when they are plentiful so you can continue to enjoy them when Biddy starts her moulting and stops her laying.

Storage EGGS cost from 10c to 15c a dozen less than Fresh EGGS. Use them in the Prize EGG Recipes—they taste just as good.
